

Dear Aspiring Spartans,

This is an exciting time for you to be thinking about your child's future and, thus, we would like to take this opportunity to tell you about the amazing magnet programs we have at Miami Southridge Senior High School. We want you to know that everyone's health and safety is our #1 priority. We are following strict CDC protocols and procedures and are taking extra measures to keep our students and staff safe.

Miami Southridge is a "B" school that offers a focused, diverse, and well-rounded education focused on promoting **Academics, Activities, Athletics, and the Arts**. We are a comprehensive academic institution with state-of-the-art programs, innovative learning opportunities, and high performing professionals as educators. Our magnet programs and academies specialize in a specific area of interest and offer our students the opportunity to grow to their fullest potential while earning college credits and industry certifications.

We have 5 AMAZING Magnet Programs at Miami Southridge:

 **Business Innovation & Management** - This program will prepare students for the modern tech business industry. Students will learn the technical skills needed to start and run a business from entrepreneurship to operations and accounting, while having the opportunity to earn industry certifications from Microsoft, Intuit Quickbooks, and Bloomberg Financial.

 **Coding & App Development** - This program will equip students to be proficient coders, and develop apps using various programming languages. Students will prepare for high paying and in-demand jobs in the computer science field while having the opportunity to earn industry certifications such as the Microsoft Office Specialist, Microsoft Technology Associate, and other programming certifications.

 **Gaming Design & Animation** - This program prepares students to study in the field of entertainment technology. Students will gain experience in 3D animation as well as coding for game development. Students in this program can also earn industry certifications from Unity, Adobe, and Microsoft.

 **AP Capstone** - This is a diploma program from the College Board that gives students the opportunity to thoroughly prepare for the in-depth and long-term research assignments they will encounter during their postsecondary education. It's based on two yearlong AP courses: AP Seminar and AP Research. Rather than teaching subject-specific content, these courses develop students' skills in research, analysis, evidence-based arguments, collaboration, writing, and presenting. Students who complete the two-year program can earn one of two different AP Capstone awards, which are valued by colleges across the United States and around the world.

 **Criminal Justice** - This program was developed in response to the growing interest of students in career areas such as law enforcement and forensic science. Students will explore and learn about career opportunities in the fields of law enforcement, the court system, and the correctional system. The curriculum is designed to teach students the knowledge and skills needed to be successful in this field and will prepare students to take the ALP (Accredited Legal Professional) industry certification exam their senior year.

If you missed our Virtual Magnet Night **Virtual Magnet Night** we will have another one on Wednesday, January 13TH at 6:00 P.M. Please tune in to our [website](#) and social media platforms to stay up to date on the latest information. For further information, email one of our Magnet Lead Teachers, Ms. Evans at sevans@dadeschools.net or Ms. Ortiz at mercyortiz@dadeschools.net, or call 305-238-6110.
